

## McLean Hospital/Harvard Medical School Psychology Internship

### Internship Admissions, Support, & Initial Placement Data 2023-2024

As of 2017, the following standardized tables of admissions, support and initial placement data are required for all APA accredited internship program websites. The Clinical Psychology Internship Training Program tables are updated annually.

<b>Internship Program Admissions</b>		
<b>Date Program Tables are updated 8/15/2022</b>		
<p>McLean Hospital/Harvard Medical School doctoral clinical psychology internship applicants are expected to be enrolled in either an APA or CPA accredited clinical or counseling psychology doctoral program and will have completed their programs required pre-internship course work, as well as have an approved dissertation proposal prior to the start of the internship year (i.e., July 1, 2023).</p>		
<p>Applicants should also have participated in a minimum of 500 supervised practicum direct contact intervention hours obtained in two or more practicum sites.</p> <p>No minimum number of direct contact assessment hours is required. In addition, applicants must have achieved a high level of academic accomplishment along with a strong track record of research productivity, including refereed journal publications and presentations at national scientific meetings. For additional information about eligibility requirements, see the Harvard Medical School/McLean Hospital listing in the most recent APPIC Internship Directory.</p> <p>It is anticipated that there will be 10 full-time funded intern positions available for the 2023-2024 academic year and these positions will focus on the treatment of adults with the full spectrum of behavioral health issues.</p> <p>Our doctoral clinical psychology internship strives to develop an interns' competencies in a wide range of empirically supported treatments that can be effectively utilized with a full spectrum of mental health disorders in an active tertiary care environment. While behavior therapy, cognitive behavior therapy, dialectical behavior therapy, acceptance and commitment therapy, and motivational interviewing orientations are most prevalent, there are opportunities to receive supervision in a variety of biopsychosocial perspectives. The internship objective is to develop professional psychologists who epitomize the scientist-practitioner model.</p>		
<b>Does the program require that applicants have received a minimum number of hours of the following at the time of application? If Yes, indicate how many:</b>		
Total Direct Contact Intervention Hours	Yes	Amount: 500
